

ANTARCTIC RECORD No. 53

CONTENTS

Scientific Papers

- Rocket observations of the lower ionosphere in the 12th-14th Japanese Antarctic Research Expeditions (1971-1973)(in Japanese)
..... *Shigeru Miyazaki*..... 1
- An experimental study on the snowdrifts formed by simple obstacles
(in Japanese) *Taichi Maki*.....33
- A preliminary report on the blowing snow observation using the light scattering in high winds at Syowa Station, Antarctica (in Japanese) *Shun'ichi Kobayashi and Kinken Makino*.....45
- A steam-operated drill used by the 14th Japanese Antarctic Research Expedition (1972-1974) *Renji Naruse and Yosio Suzuki*.....53
- Geology of the West Yamato Nunataks, East Antarctica
..... *Kazuyuki Shiraishi*.....57
- Cultivation of Antarctic microalgae (1)
Isolation and culture of Antarctic endemic diatom *Navicula muticopsis* from fresh water at West Ongul Island, Antarctica
(in Japanese) *Tomohiko Watanuki and Sakae Karasawa*.....75
- Preliminary report on the diatom from East Ongul Island, 2 (in Japanese)
..... *Hiroshi Fukushima, Tomohiko Watanuki and Tsuyako Ko-Bayashi*.....82
- Clostridia* isolated from the soil in the east coast of Lützow-Holm Bay,
East Antarctica (in Japanese) *Toshio Miwa*.....89
- Body burdens of Cesium-137 and Potassium-40 in twenty-one
members of the wintering party of the 16th Japanese Antarctic Research Expedition 1975 (in Japanese)
..... *Mitsumasa Miyashita, Yoriko Atomi and Keiko Ueda*... 100

Reports

- Report of the wintering party of the 14th Japanese Antarctic Research Expedition in 1973-1974 (in Japanese)
..... *Takeo Hirasawa*... 106
- Preliminary report of the oversnow traverse of the 14th Japanese Antarctic Research Expedition 1973-1974 (in Japanese)
..... *Renji Naruse*... 127
- Report of the summer party of the 16th Japanese Antarctic Research Expedition in 1974-1975 (in Japanese) *Yoshio Yoshida*... 141
